

Learn Futures
Thinking Skills

FUTURES FOR AFRICA WORKSHOP

12-14 September 2023

Cape Town, South Africa

Africa has some unique opportunities to craft a positive future. This conference is designed for organisations in Africa to explore these themes and learn futures thinking models to usher in positive scenarios.

The theme of the presentations will be about Africa's futures, and the purpose will be to teach and transmit Futures Thinking skills to the delegates so that they can use and teach these same skills in their own organisations.

DISCUSSIONS AND INSIGHTS

AFRICA: ON THE CUSP OF AN ECONOMIC MIRACLE

The 7 Point narrative of why Africa could have an economic miracle, including the stories, statistics and solutions

FUTURES MODELS AND TOOLS

Futures thinking models and skills will be used and taught to the delegates so that new scenarios can be crafted.

FUTURES IN ACTION

A day trip connecting with futures in action in science, agriculture, education, and business

THE SPEAKERS

Charlotte Kemp

Futurist, International
Keynote Speaker,
Author

Yelang Prue Jinka

Founder and Executive
Producer of All Access
Africa, Speaker, Author

Launch of Book

AFRICA: ON THE CUSP OF AN ECONOMIC MIRACLE

The main focus of this symposium is on the content of the book, by the same title, based on an initial White Paper drafted by Yelang Prue Jinka. "**AFRICA: On the Cusp of an Economic Miracle**" outlines 7 specific areas where Africa has an advantage, limited only by how soon we act on that advantage, and whether or not we do so positively.

Day 1 of the Symposium will be a presentation by both Yelang Prue Jinka and Charlotte Kemp, on the topic, with examples, stories and statistics.

Day 2 will see participants workshopping the content of Day 1, using specific futures models and tools that will teach them how to use Futures Thinking for decision making and policy development. These tools will be available as a kit for each Company to pass this skill set on to team back home.

Day 3 will allow delegates to explore some specific examples of futures focussed businesses in Cape Town, with a focus on science, agriculture and education. This day trip will introduce innovative ideas, encouragement on the pursuit of ground breaking projects, and allow for a sharing of conversation which will help to reinforce the learnings of the previous two days.

FUTURES FOR AFRICA WORKSHOP

WHO IS THIS FOR?

Futures Thinking skills are vital, relatively new professional skills. Anyone in leadership positions will benefit from learning these skills and using them in decision making as well as passing them on to their teams.

This workshop is designed to both demonstrate positive futures for Africa, as well as how we can use Futures Thinking Skills to take advantage of those opportunities for our organisations.

Leaders, decision makers, policy makers, founders, board members, entrepreneurs and more, are invited to share in this event.

WHAT THE DELEGATES AND COMPANIES WILL RECEIVE

The conference fees for each delegate includes:

1. 2 Days of In Session meetings, including lunches and refreshments
2. A Pre-event party on the evening prior to the sessions
3. Travel costs for the 3rd day 'Futures in Action'
4. Lunch, soft drinks and refreshments for the 3rd day
5. A copy of both books as well as conference notes

Each company represented by a delegate will also receive:

1. A Futures Thinking Toolkit (documents, slides, templates) to teach Futures Thinking to their organisational leaders
2. A set of Trend cards pertinent to their field and to Africa.
3. A set of Scenarios pertinent to the Future of Africa.
4. One Pre and one Post Conference Zoom call to discuss learnings and potential futures focussed strategies.
5. Access to an Online Learning Program with the Fundamentals of Futures Thinking, to begin to share this mindset and approach with colleagues.

FUTURES FOR AFRICA WORKSHOP

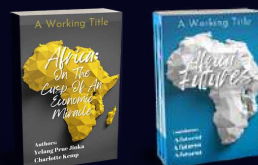

WHO IS RUNNING THIS EVENT?

Please see the webpage for full details on the event and team involved. The two main speakers, **Charlotte Kemp** and **Yelang Prue Jinka**, are the authors of "Africa: On the Cusp of an Economic Miracle". Charlotte is also the editor of the book "On African Futures" which is a compilation of essays from futurists working in Africa.

Both books will be part of the conference package for the delegates.

The team from Voices Into Africa will be the technical and administrative support for this event.
